
Open Source Maintainers GA

About this Community

Open Source Maintainers GA operates as a principle-driven community dedicated to fostering sustainable, inclusive, and transparent open-source software development. Guided by clearly defined values prioritized over operational details, the community ensures decisions align with its core mission. Culture is scaled through explicit values practiced daily, reinforced by consistent actions and open communication. The community actively welcomes feedback, using it to drive continuous improvement, and commits to publishing revisions to processes and governance on a regular cadence, ensuring transparency and adaptability. This framework supports a collaborative, resilient ecosystem for maintainers and contributors worldwide.

Sample Rules / Principles

• Tooling and CI

Green CI before merge; reproducible builds. Principles: - Respect people, respect time, respect the mission. - Clarity beats cleverness; kindness beats clout. Practices: - State boundaries and intentions plainly. -...

• Funding and Sponsorship

Disclose funding; avoid pay-to-merge conflicts. Principles: - Respect people, respect time, respect the mission. - Clarity beats cleverness; kindness beats clout. Practices: - State boundaries and intentions plainly. -...

• Docs and Examples

Every feature ships with a minimal example. Principles: - Respect people, respect time, respect the mission. - Clarity beats cleverness; kindness beats clout. Practices: - State boundaries and intentions plainly. -...

• Backlog Hygiene

Close stale issues with context; archive abandoned modules. Principles: - Respect people, respect time, respect the mission. - Clarity beats cleverness; kindness beats clout. Practices: - State boundaries and intentions...
