
Elect John Day - County Commissioner

About this Community

John Day is running for County Commissioner with a clear, practical vision: build safer roads, stand up for small farmers, and keep local finances transparent and responsible.

For John, safer roads mean more than just pothole repair, they mean protecting school buses, farm trucks, cyclists, and emergency crews who depend on reliable infrastructure every day. He supports regular maintenance schedules, smarter traffic planning, and partnerships that make rural routes as dependable as city streets.

As a lifelong resident who grew up helping on his family's acreage, John understands the challenges local farmers face. He advocates reducing red tape, improving access to local markets, and encouraging young people to stay in agriculture. His goal is to strengthen the backbone of the county's economy, family farms, through cooperative programs and practical investment.

Fiscal...

Sample Rules / Principles

- **Park Cleanups and Youth Volunteer Program**

Organize quarterly park cleanups and start a youth volunteer program with small stipends and certificates to encourage community service.

- **County Grant Program for Small Businesses**

Create a modest grant program to help small downtown businesses with renovations and storefront upgrades to encourage local commerce.

- **Broadband Access for Outlying Areas**

Partner with state and private providers to expand affordable broadband to rural households to support education, telemedicine, and small business.

- **Support Local Farmers Market**

Create a weekly farmers market in the county square with small vendor grants to help local growers and artisans reach customers directly.
