
Better Weekends in Harbor Point

About this Community

Better Weekends is a plan to grow tourism, support local venues, and keep neighborhoods livable. Candidate Leo Martin has managed events from street fairs to arena concerts and understands the logistics that make great weekends work for everyone.

We propose coordinated permitting, cleanup standards, transit shuttles, and clear sound/load-in rules so venues and residents aren't at odds. Transparency on costs and outcomes helps taxpayers see value.

Use this space to shape policies, propose pilot corridors, and track every major weekend from planning to post-event report.

Sample Rules / Principles

- **Post-Event Reports & Metrics**

Within 10 days, publish attendance, transit usage, economic impact estimates, and complaints resolved.

- **Local Vendor & Artist Priority**

Booth set-asides and microgrants; report local vendor share and sales estimates.

- **Fair Fees & Transparent Costs**

Cost recovery standards and public breakdowns of staffing, cleanup, and police overtime.

- **Noise Windows & Load-In Standards**

Clear windows for sound checks and load-ins; complaint dashboards and mitigation grants.
